CAREER OBJECTIVE

As a highly skilled Senior Software Developer with extensive experience in developing, maintaining, and deploying web applications, I am seeking a challenging role where I can leverage my expertise in Full-Stack .NET development(.NET/ React/Angular) and automation using C#/Selenium/Playwright. My goal is to contribute to innovative projects, drive technical excellence, and mentor teams to achieve outstanding results. With a strong background in agile methodologies, code reviews, and production support, I am committed to delivering high-quality solutions and continuously enhancing my skills through learning and collaboration.

EXPERIENCE

Well Fargo India [Nov 2021 – Present, Hyderabad]:

- As a Senior Software Engineer, current responsibilities include developing, maintaining, testing, writing unit tests and deploying the **DLT/CRIS/STARS** web portals.
- Performed key role in on-boarding HyperExecute Test Orchestrator tool, PCF to OpenShift cloud migration, .
- Also key team member in certain activities like - sprint planning, pre-planning, backlog creation, and sprint retrospectives.
- Engage in pair programming, conduct thorough code reviews, and approve pull requests at the sprint level.
- As an SME in automation, help other teams to achieve automation goals in their respective domain.
- Furthermore, I play an active role in the release cycle and provide production support.
- Anticipate in POC(s), and other R&D jira to help team uplift and do certain kind of migrations smoothly.
- Additionally, I actively volunteer in corporate-level hackathons and white-paper campaigns to stay engaged.
- I continuously invest in learning new technologies on Udemy and Pluralsight, ensuring I stay updated with industry trends and keep myself motivated to grow in the evolving tech landscape.
- Creating and maintaining design documentation on confluence pages for future reference.

Allstate India [Mar 2020 – Sep 2021, Pune]:

As a consultant, my responsibilities included designing, developing, and maintaining a vehicle insurance web application. I also interacted with the product owner and business owner for enhancements and requirement gathering. Additionally, I worked on web automation using Selenium and C#.

Coding Brains Solutions Pvt Ltd [Sep 2018 – Mar 2020, Lucknow]:

As a software developer in a service-based organisation, I engaged with clients to define project scopes and estimate work efforts. I was responsible for end-to-end development and testing across various projects, including PaceAirFreight, CatScale, and AirlineApps.

SISL INFOTECH Pvt Ltd [Apr 2018 – Jul 2018, Lucknow]:

Worked on state government web-based project like - UPSSC, did full-stack development using .NET.

ACME Digitek Solutions Pvt LTD [Jun 2017 – Mar 2018, Lucknow] & [Dec 2014 – May 2015, Lucknow]:

I began my software development journey as a trainee and later transitioned to the role of a software developer. I worked on state government projects such as UP RERA and GDA.
